Reference: July 31, 1986 U. S. EPA
Request Concerning Harbor Island Site

Dear Ms. Cohen:

Our response to Mr. Findley's referenced transmittal is attached. We had previously responded to questions one (1) and nine (9). Followup information requested by EPA on the exact location of the piece of property leased to the Stevedoring Services of America will be forwarded to you shortly.

Please call me at the above phone number if you wish to discuss our responses further.

Sincerely,

David A. Smith

1. Previously answered.
2. The ARCO Petroleum Products Co. Harbor Island facility handles petroleum products that appear to be excluded from CERCLA under Section 101 (14) of the Act.
3. See response to Question No. 2.
4. See response to Question No. 2.
5. See response to Question No. 2.
6. See response to Question No. 2.
7. See response to Question No. 8.
8. In October of 1985, a groundwater well was installed in the northwest corner of our warehouse. The well was installed in an attempt to address a small oily sheen that appears in the channel along side the warehouse. The results were inconclusive. The well is not currently in use.

Several (4-5) groundwater wells were installed a number of years ago at the site. All but one well has been grouted in. The remaining well is located just south west of the current loading rack.

9. Previously answered.
10. ARCO objects to this request in that it seeks information which does not pertain to the handling of hazardous substances, as defined in applicable statutes and regulations, and is thus outside the scope of Section 104 of CERCLA.
